#### **State Impact:**

Agency Affected	Fund-Effect	FY 11 \$
Policy & Mgmt., Off.	GF - Cost	At least \$1,000,000

Note: GF=General Fund

**Municipal Impact:** None

#### **Explanation**

The bill requires the Office of Policy and Management (OPM) to consult with various state agencies, to develop and implement policies and procedures that promote data sharing and integrate the automated data systems for certain information. It is anticipated that OPM will incur costs in excess of \$1 million<sup>1</sup> in FY 11.

The requirement that OPM develop and implement data sharing and integration within available appropriations will likely result in one of four outcomes: (1) OPM will proceed, and require a deficiency appropriation in FY 11; (2) OPM will delay the implementation of the bill pending the approval of additional appropriations; (3) OPM will shift resources from other agency priorities to develop the licensing and permitting system, thereby impacting existing departmental programs; or (4) OPM will not implement the bill.

#### **The Out Years**

The cost in excess of \$1 million to develop the system indicated above would decrease over time to provide ongoing maintenance once

<sup>1</sup> Cost estimates are based on previous information technology integration projects of a similar scope, such as the Criminal Justice Information Technology System and the Common Front End project.

the system has been integrated in accordance with the bill.
